## Nocturnal Animal Search and Find

### What you need:

- A flashlight
- Toys or stuffed animals (or pictures)  
of animals that are nocturnal

Hide toy animals around your home or around one room in your home.

Once they are hidden, turn off most (or all!) of the lights.

Using your flashlight, search for these animals together until you find them all.

## Animals Sort: Daytime or Nighttime?

Talk together about animals that are nocturnal (they are awake at night and sleep during the day) and animals that are diurnal (they are awake during the day and sleep at night).

Can you name some of each type?

Can you draw a picture of a nocturnal and a diurnal animal?

Together, you can also make a chart and write the names (or draw pictures) of animals that are nocturnal on one side and diurnal on the other.

***Come and visit your local library to look for books about animals that are nocturnal and diurnal!***

## There's Something in the Nighttime

There's something in the nighttime  
that I can't really see.

There's something in the nighttime,  
Now what can it be?

Who, Who

Hear its funny sound?

Who, Who

An Owl is what I found!

*Repeat with mouse, wolf, owl, fox, hedgehog, and  
any other animals you like!*

*If you have a picture or toy of any of these animals,  
bring them out when you say this guessing rhyme.*

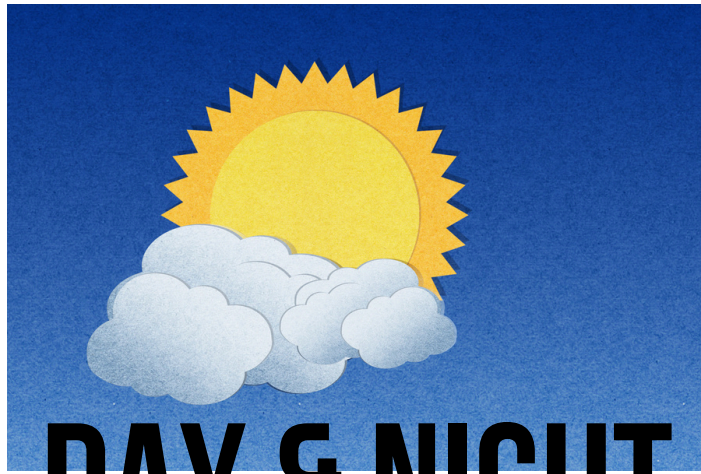

# Where is the sun?

Draw some stars in the nighttime picture.

Draw a Sun in the daytime picture.

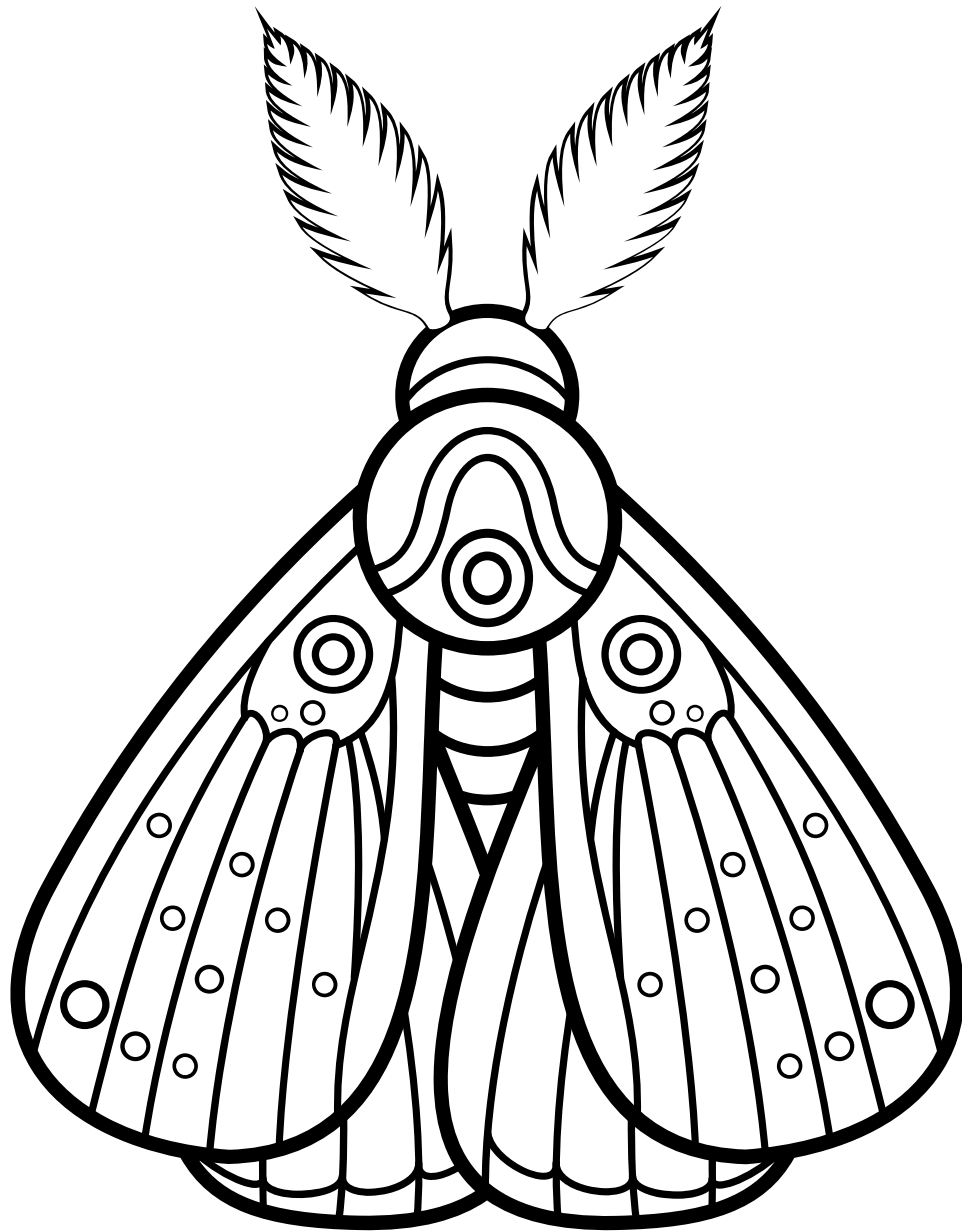

# DAY & NIGHT

Draw some things you do in the day:

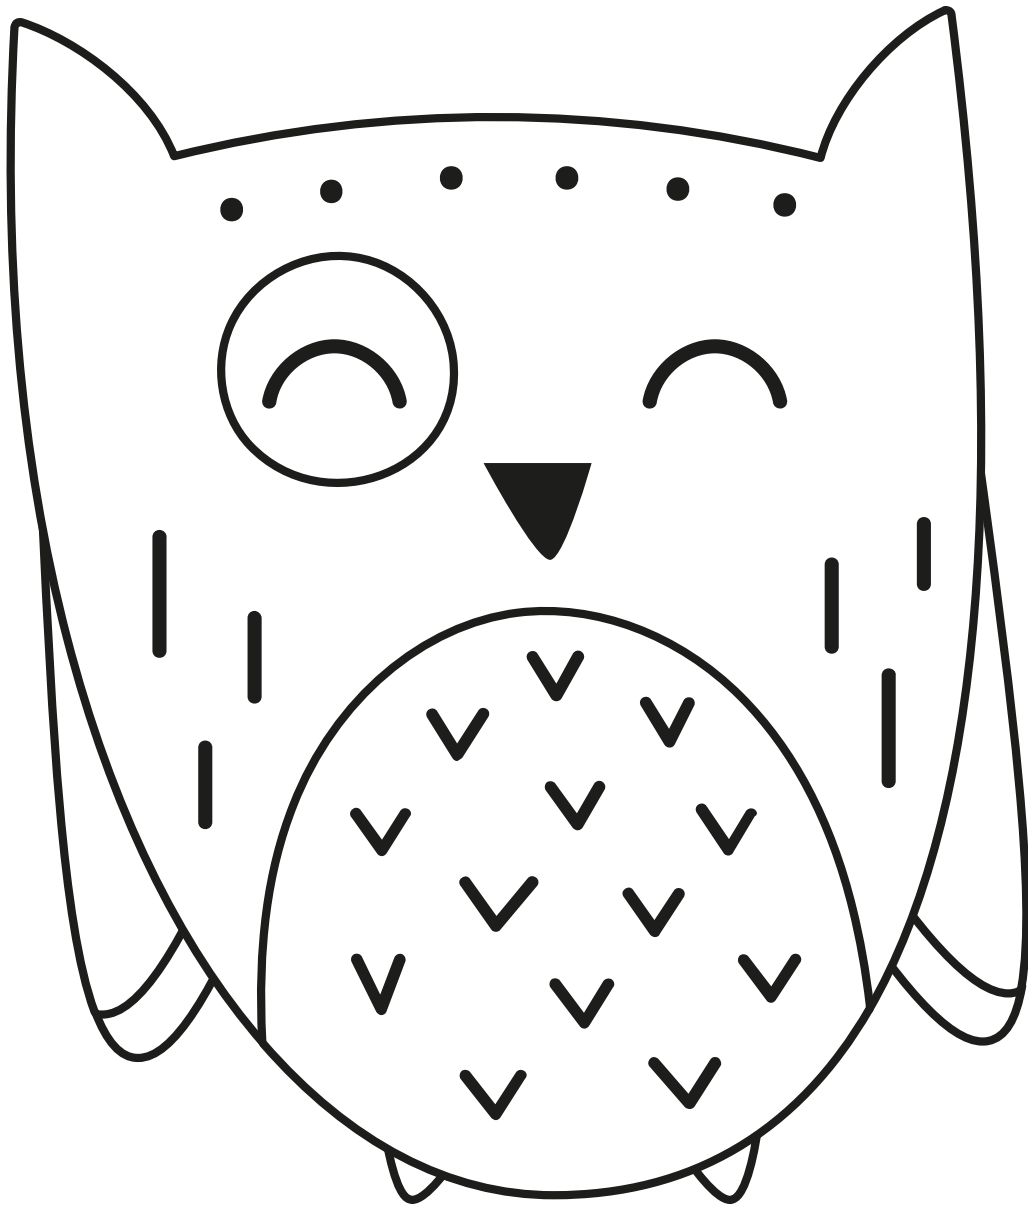

# DAY & NIGHT

Draw some things you do at night:

MOTH

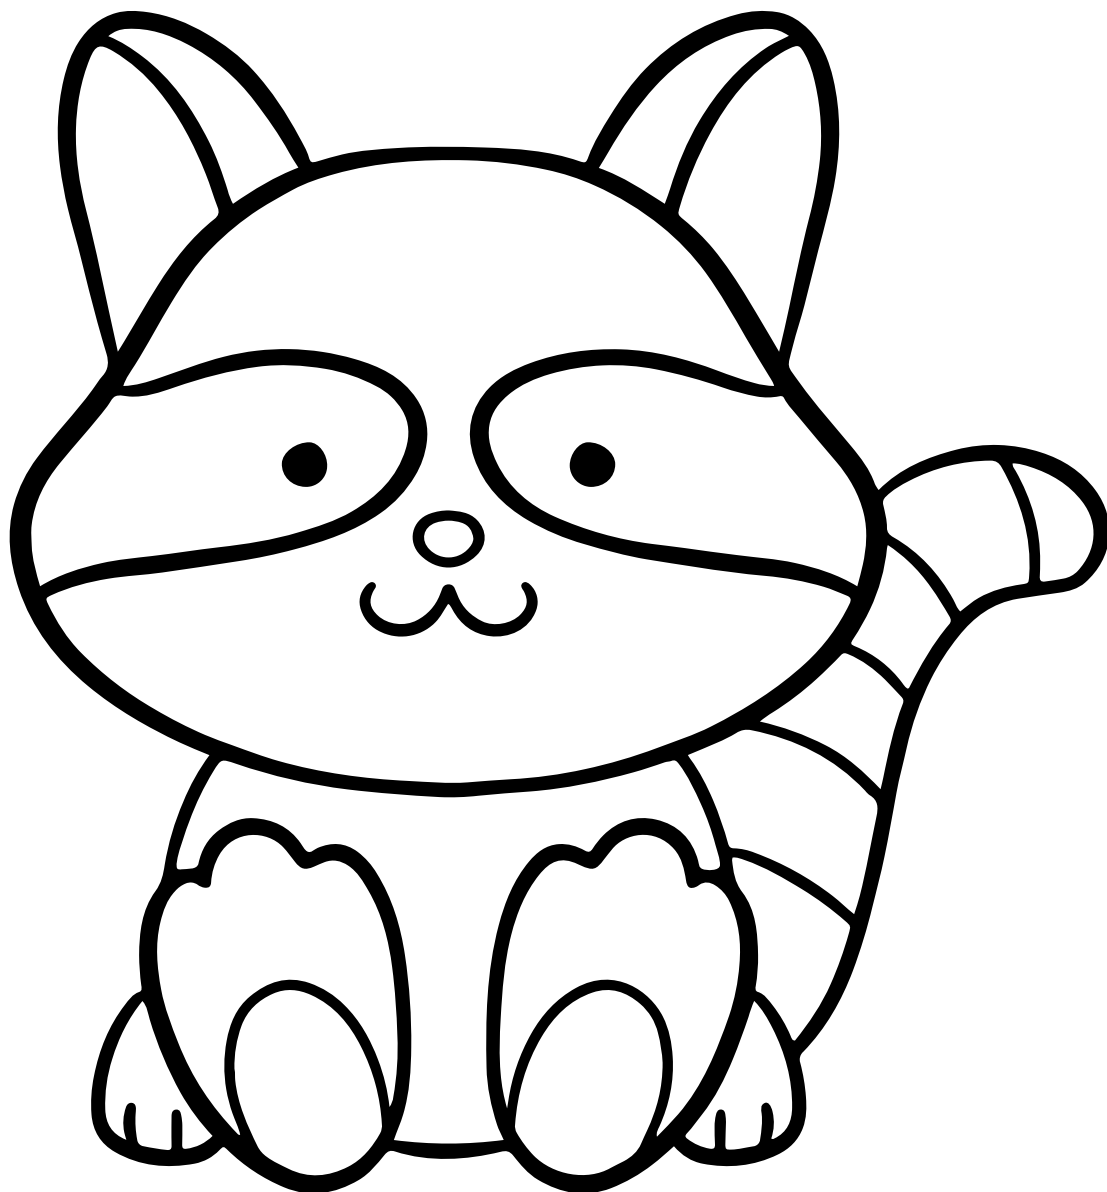

I am an owl!

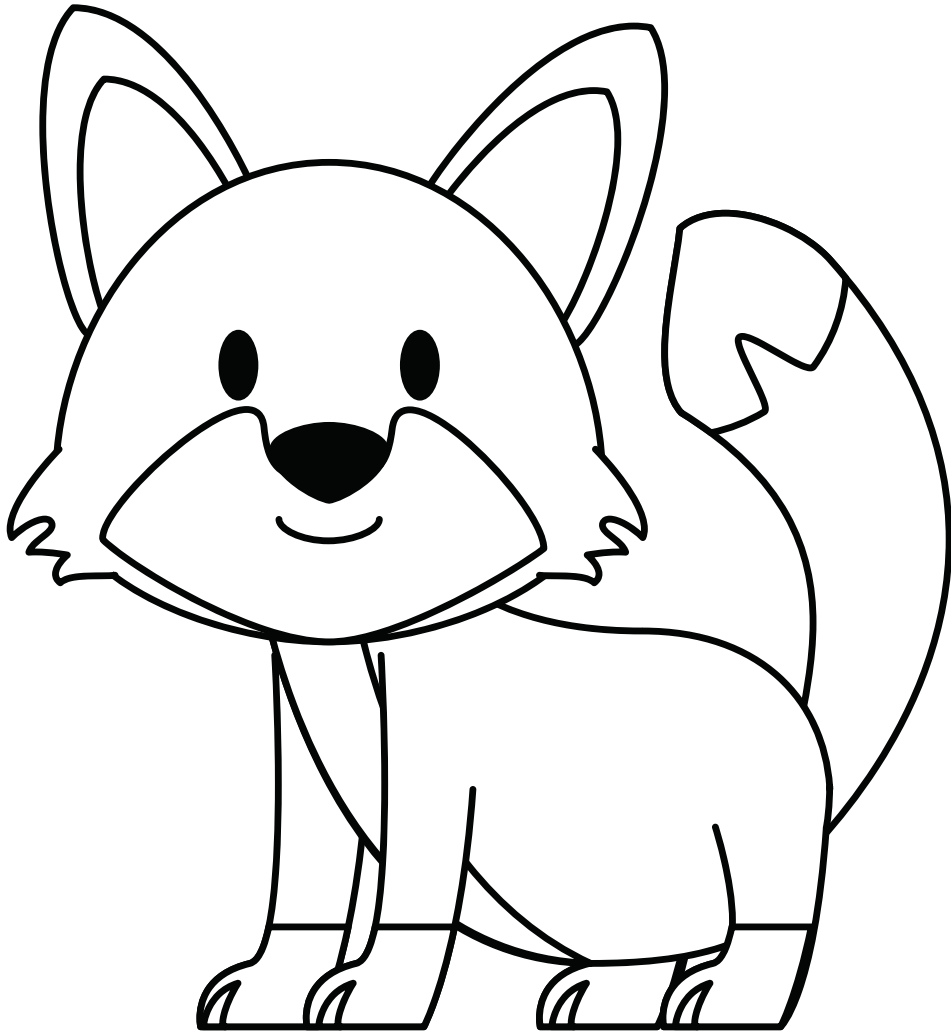

Hear me HOOOT!

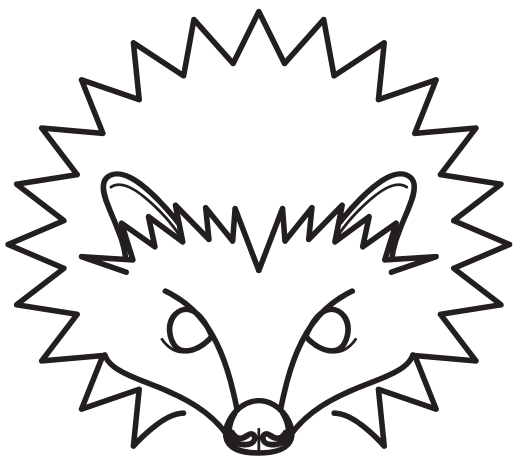

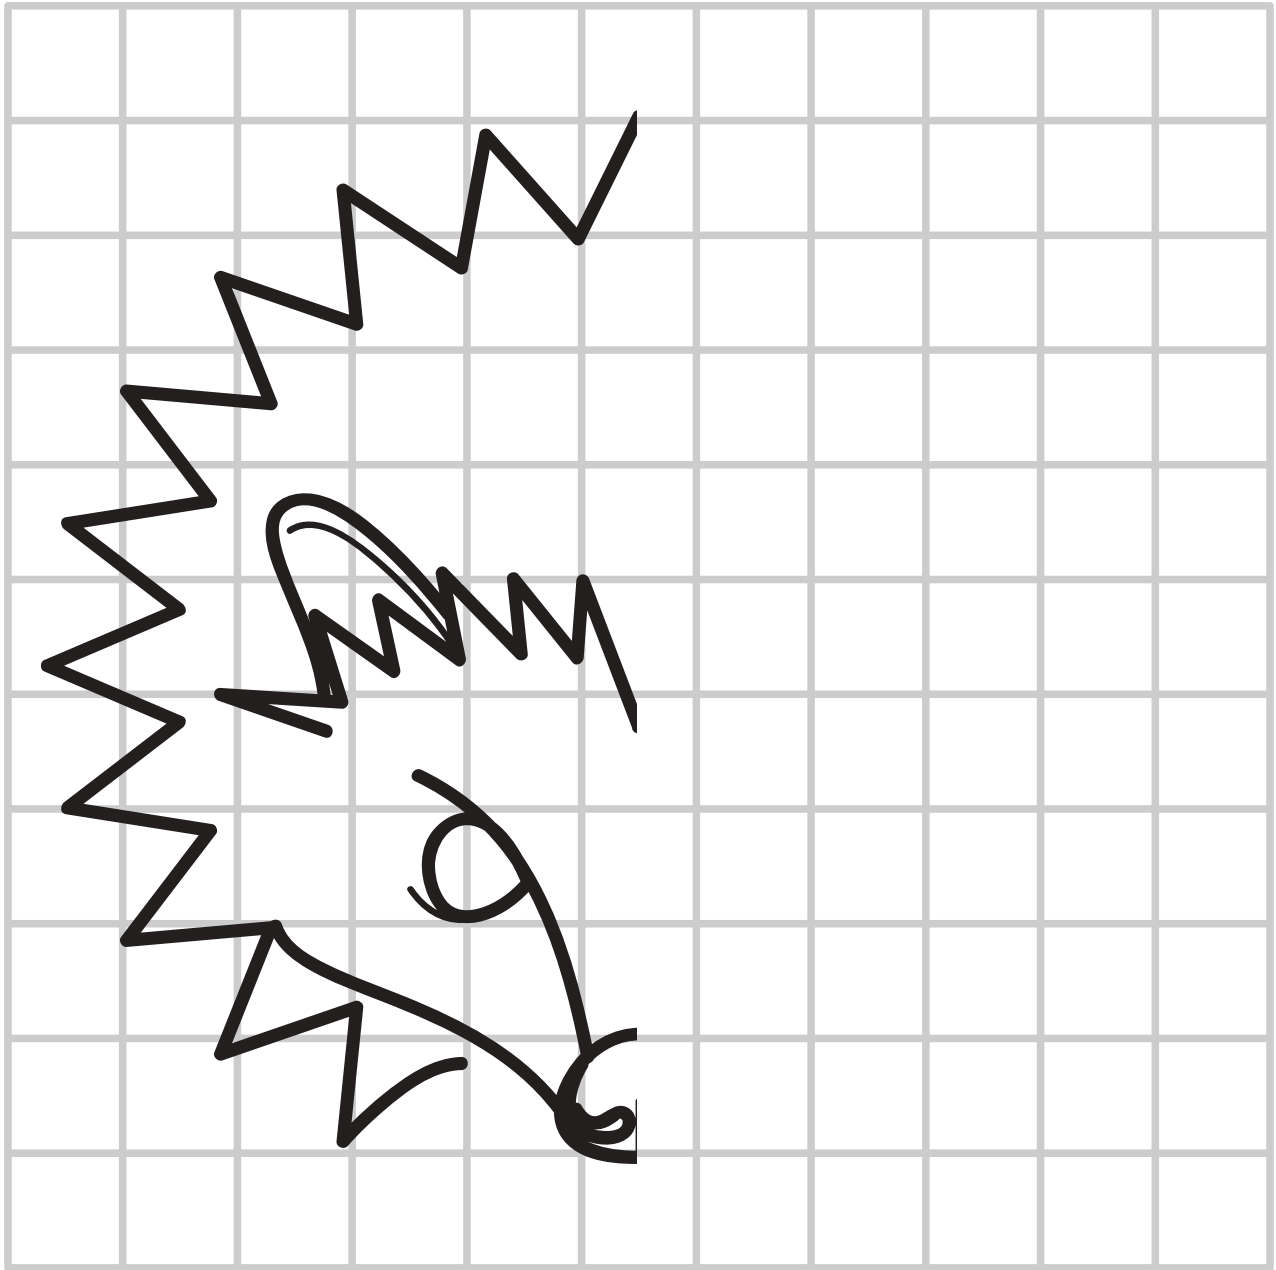

Use some of the colors below to create a bright and colorful raccoon.

**FOX**

Use the grid to draw the other side of the hedgehog and color it.

**hedgehog**

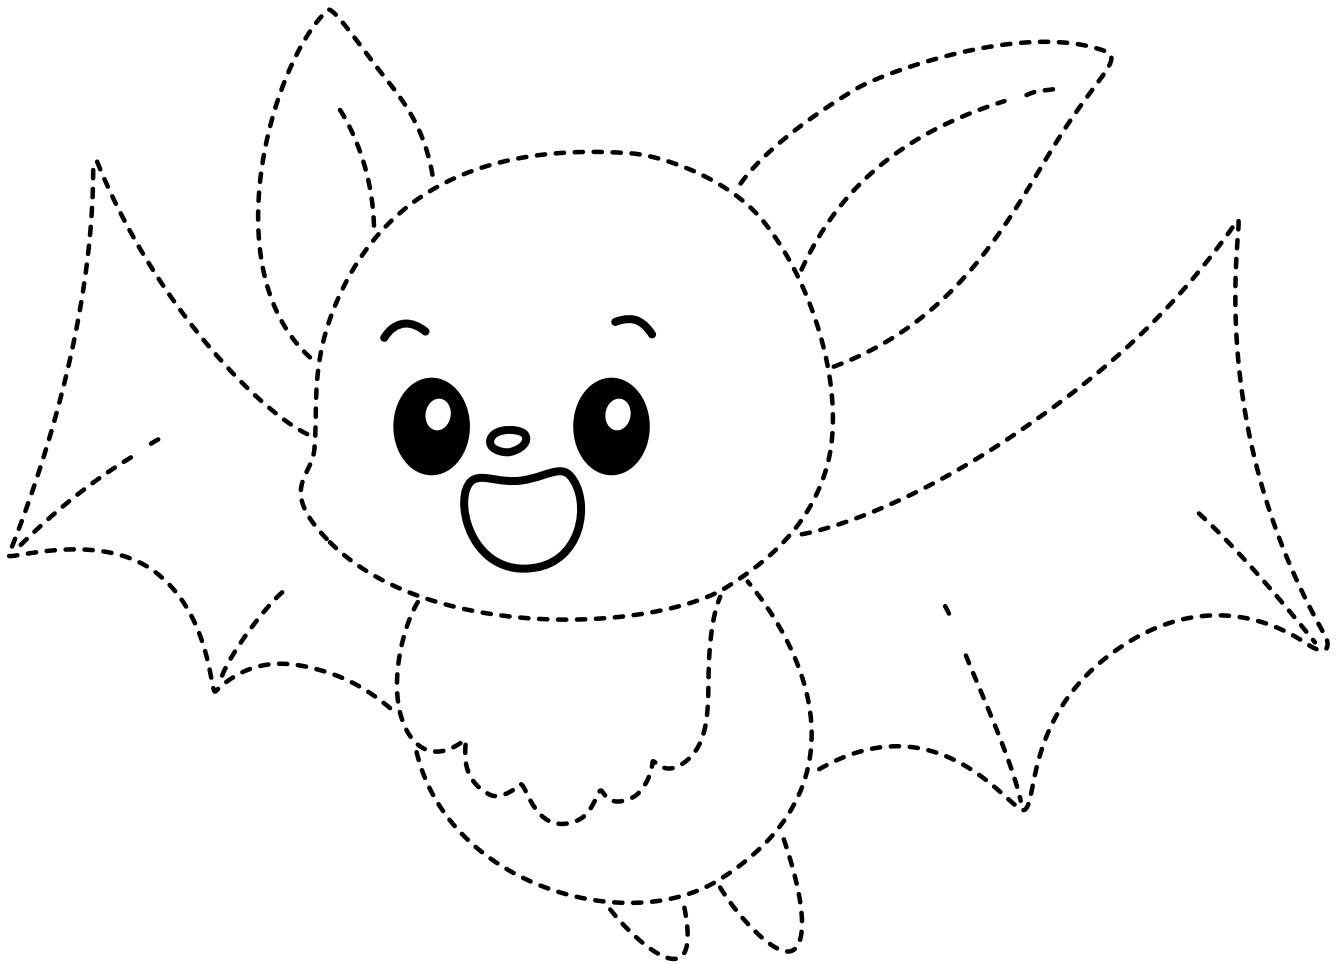

owl

# badger

# TRACE AND COLOR

bat

# I AM THANKFUL FOR...

Write or draw something you are thankful for in each maple leaf.
