Games and Activities

Letter to Object Match Game

What you need

LETTERS: You can use magnet letters, pictures of letters or letters that you draw and color.

OBJECTS: You will need one object per child that corresponds to a letter. Use found objects around the house.

HOW TO PLAY: Lay out the ABC letters on a table or the floor. You could sing the Alphabet song while setting out the letters. Hand out an object that you found and ask your child to look at it and say the word of the object out loud. Then ask them to think about what the first sound of the object is. Work on matching each object to the correct letter together!

This is a fun game to play with just a few letters at a time or as many as you like.

Travelling to School Game

How would you like to get to school?

- Find a container of some kind.
- Find pictures or small toys of different forms of transportation (matchbox cars, toy horse, small truck or ship).
- Put these pictures or items into the box.

You could play this as a guessing game with your children where you give clues about forms of transportation and pull each one out of the box.

Or you could just talk about getting to school. Some ideas could also be silly ones! (Would you take a hot air balloon to school?)

Decorated Lunch Bags

What you need

- Paper lunch bags
- Crayons, markers, pencils, stickers, stamps - whatever you have on hand!

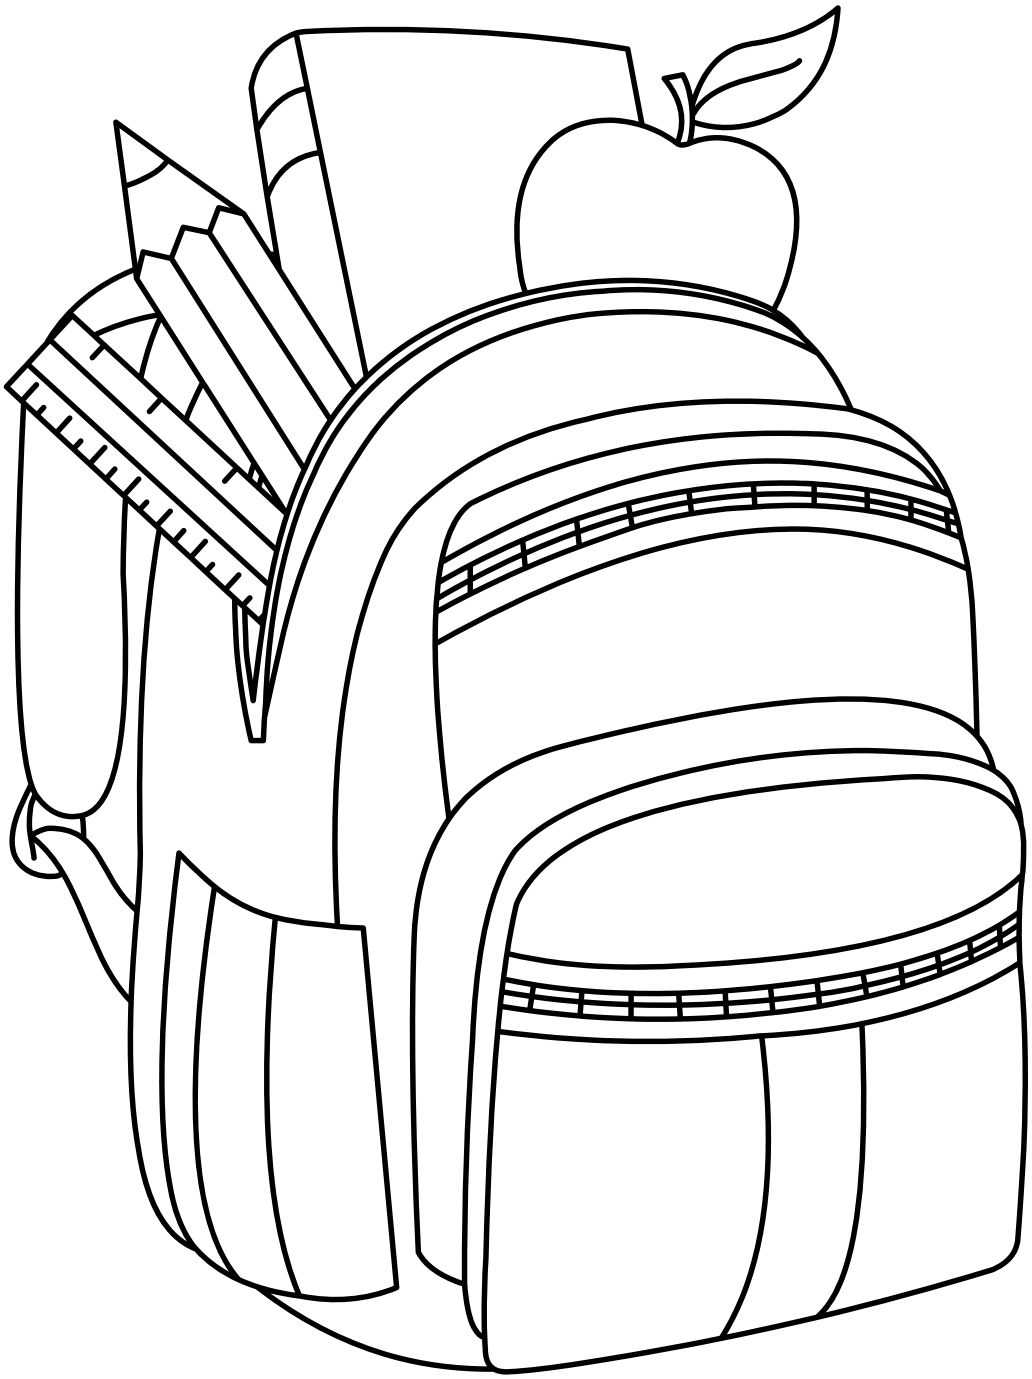

Have fun decorating lunch bags!

This is a good chance to talk about going back to school with your children:

- What are they most looking forward to?
- Are they feeling anxious about anything?

Did you know your Pierce County Library offers sensory tools for use in the library? Talk to the Help Desk to use ear protection, sensory windows and more on your next visit.
